## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: Reference numeral **24** as shown in Figs. 1 and 4; Reference numeral **25** as shown in Fig. 4; Reference numeral **300** as shown in Fig. 6.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities:

In the amendment to the specification on page 6, replacing the paragraph beginning on line 6, the sentence "first handle grip 4 includes an aperture 2 for hanging

Art Unit: 1744

the cleansing brush 100" (see original specification, page 6, lines 8-9) appears to be **missing** from the amended paragraph.

Appropriate correction is required.

### ***Claim Objections***

3. Claims 1-6 are objected to because of the following informalities:

Claim 1, line 9, "joint portion" should read –joint assembly--.

Claim 1, lines 11-14, it appears that "said first disk member" (line 11) should read –said second disk member-- and "said second disk member" (line 13) should read –said first disk member--. Applicant should be consistent with that shown and disclosed for Figs. 1 and 2. For example, Fig. 2 shows **second** disk 10 that includes the spring biased ball plunger 28, not the first disk as recited in claim 1. Applicant is respectfully requested to review **all claims** now for clarity and consistency concerning this objection.

Claim 2, line 3, "removable" should read –removably--.

Appropriate correction is required.

### ***Allowable Subject Matter***

4. Claims 1-6 define allowable subject matter.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
